Nutritional Analysis
Allergens

RnD SUPPORT

Sensory Testing
Packaging Compatibility
Texture Analysis
Rancidity Testing
Label Compliance
Multimarket Regulatory Assessments
Nutritional panel development & verification
Stability & Shelf life

MOLECULAR

Microbial Identification
Rapid Pathogen Detection
Cleaning Validation/Hygiene Verification
Food Authenticity
GMO Testing

RESIDUES

Pesticides
Mycotoxins
Antibiotics
Heavy Metals
Contaminants

PACKAGING

Migration (Overall & Specific)
NIAS - Screening methods
Heavy Metals
PAA, PFAS, BPA, Phthalates
Sensory Analysis
Physical - Mechanical Properties
Material identification
OTR-WVTR
Leak Test
Colour migration

ENVIRONMENTAL

Water & Wastewater
A12 Flammability test / UN Test N.5 (EC) 440/2008
Solid Waste
Leach Test (2003/33/EC)
Dioxins, PCBs, VOCs, BTEX, PAH, TPH, Heavy Metals

QACS FOOD

FOOD & PACKAGING TESTING LAB

Our comprehensive range of Chemical, Microbiological, Packaging, Residues & Molecular testing services ensure the Safety, Compliance and Quality of your products.

We achieve this by leveraging over 100 years of laboratory testing expertise, comprehensive ISO 17025 accreditation, real-time data access, and cutting-edge equipment and facilities.

Laboratory Testing services are adopted to industry requirements and are provided worldwide.
